BASIS

📍 Flagstaff
Grades K–12

The mission of BASIS Charter Schools is to empower students to achieve at globally competitive levels with a transformative K–12 academic program.

BASIS Flagstaff is a **TUITION-FREE** public charter school serving grades K–12. We offer a world-class curriculum, a variety of advanced academic courses, and a strong student support system.

WHAT MAKES BASIS CHARTER SCHOOLS' ACADEMIC PROGRAM EXCEPTIONAL?

We are a global leader in education.

BASIS Charter Schools are consistently named among the top schools in the nation. According to *U.S. News & World Report* 2023 rankings, 10 of the top 20 charter high schools in the nation are BASIS Charter Schools. Our schools also represent six of the top 20 STEM high schools in the country.

Our students engage in the world-class BASIS Charter School Curriculum, which fuels critical thinking, problem-solving, and creativity. Classes are led by knowledgeable Subject Expert Teachers who design challenging and engaging lessons that appeal to different learning styles. As a result, BASIS Charter School students achieve excellent academic outcomes and become self-motivated learners.

Our students earn some of the top scores in the world.

Our robust academic program allows students to advance to AP-level courses across all disciplines, and our world-class curriculum is on par with Europe and Asia's high-achieving educational systems.

BASIS Charter School students not only acquire knowledge through our curriculum; they are able to apply it in real-world situations. Results from the OECD Test for Schools (based on PISA), a highly regarded exam taken by students in more than 70 countries, show that BASIS Charter School students outscore their peers in critical thinking. To learn more about our results, visit enrollbasis.com/flagstaff.

We hold students to high academic standards.

The BASIS Charter School Curriculum for grades 8–12 requires students to demonstrate mastery of challenging material. We use the College Board's AP Exams® as opportunities for them to demonstrate this mastery. Students are prepared to take AP Exams® as early as grade 8, are required to take AP courses beginning in grade 9 and will complete at least six AP Exams® prior to graduation. The externally generated and graded AP Exams® also count as final exams for AP courses. This ensures that we are holding our students to the highest possible standards.

OUR CO-TEACHING MODEL IN GRADES 1–3 SUPPORTS STUDENT ACHIEVEMENT

BASIS Charter School teachers bring our curriculum to life every day in their classrooms.

Our Co-Teaching model in grades 1–3 places one Subject Expert Teacher, a content expert, and one Learning Expert Teacher, a pedagogy specialist, in each core classroom. From grades 4–12, our Subject Expert Teachers continue to bring their knowledge, expertise, and enthusiasm to their students and classrooms.

Subject Expert Teachers (SETs)

Due to the challenging nature of the BASIS Charter School Curriculum, Subject Expert Teachers, many of whom hold advanced degrees, instruct our students. Subject Expert Teachers specialize in one subject, delivering lessons to different groups of students who rotate into their classroom throughout the day. As content experts, they are responsible for planning, preparing, and carrying out all lessons, which are always rich in content and deep in insight. SETs consistently extend their knowledge, expertise, and enthusiasm to students—maximizing comprehension and engagement.

Learning Expert Teachers (LETs)

Learning Expert Teachers are specialists in pedagogy. Their role is to teach students the skills necessary for academic and personal development, including study and organizational skills, critical thinking, and social interaction standards. In addition, LETs are the primary instructors for the Phonics course. The LET supports students' differentiated needs to accelerate the learning process.

Benefits of the Co-Teaching Model:

- Greater emphasis placed on a single subject
- Increased opportunity for students to gain content mastery
- More effective use of class time
- Maximizes comprehension and engagement
- Individual student needs met without changing the pace of lessons

HIGHLIGHTS

BASIS Flagstaff students proudly uphold, and continuously extend, our school's history of academic dedication and performance excellence. We were ranked #42 in National Rankings, #7 in Arizona High Schools, #1 in Flagstaff, AZ Metro Area High Schools, #7 in National Charter High Schools, and #77 in National STEM High Schools by *U.S. News & World Report*, 2022.* Our graduates have been accepted to many prestigious schools, including Duke University, University of Southern California, Cornell University, Northeastern University, Dartmouth College, Barrett, The Honors College at Arizona State University, University of Arizona Honors College, and the University of California, Berkeley.

*BASIS Flagstaff was ineligible for 2023 U.S. News & World Report rankings due to a data reporting error outside of BASIS Ed's control.

ARIZONA'S ACADEMIC STANDARDS ASSESSMENT: PERCENT PASSING

BASIS Charter Schools consistently earn higher state assessment scores than the state average. See how our average network scores compare to the average for all Arizona schools.

Grade	School	Math	ELA
3	All Arizona schools	40%	41%
3	BASIS Charter Schools	75%	76%
4	All Arizona schools	39%	44%
4	BASIS Charter Schools	73%	78%
5	All Arizona schools	37%	39%
5	BASIS Charter Schools	72%	69%
6	All Arizona schools	31%	39%
6	BASIS Charter Schools	66%	74%
7	All Arizona schools	27%	43%
7	BASIS Charter Schools	89%	89%
8	All Arizona schools	27%	36%
8	BASIS Charter Schools	92%	89%

KINDERGARTEN

Advanced Academics

Kindergarten at BASIS Charter Schools is designed to lay a foundation for academic success throughout the BASIS Charter School Curriculum.

We focus on enhancing students' natural instincts to explore, question, and discover as they engage in hands-on activities across a variety of courses. Our kindergarten students learn grade 1 skills by the end of the year and have fun doing so.

Co-Teaching Model

Caring and supportive kindergarten teachers lead class with creativity and intellect, inspiring students to love learning. Our co-teaching model places two teachers in each classroom—one Lead Kindergarten Teacher, who is an early education expert, and one Teaching Fellow, who assists with all aspects of lessons and learning. This model creates a comprehensive learning experience and ensures that each student's needs are met.

HALF-DAY PROGRAM

- **Language and Literacy Foundation**
- **Math Foundation**
- **Civics, History, and Science Foundation**
- **Movement Foundation**

Note: Students in the half-day program do not eat lunch at school

FULL-DAY PROGRAM (fee-based)

Students take all courses included in the half-day program, plus:

- **Engineering and Technology Foundation**
- **Mandarin**
- **Music Foundation**
- **Visual Arts Foundation**
- **Theatre Foundation**

PRIMARY SCHOOL PROGRAM

The BASIS Charter School Curriculum for grades 1–4 continues to build solid academic foundations while teaching fundamental skills, such as critical thinking, organization, time management, and study strategies. The primary core curriculum includes courses in Math and Science, Humanities, Phonics, and Physical Education. Students take Math and Science, as well as Humanities, in integrated 85-minute blocks each day. Enrichment courses include Engineering and Technology, Visual Arts, Theatre, Music, Mandarin, and Connections. Throughout the primary curriculum, students master concepts and skills that will allow them to excel in middle school and high school.

HUMANITIES (Grades 1–3)

The “Humanities” block, for grades 1–3, is a daily 85-minute class that combines language arts and social studies. Students will develop foundational reading comprehension and writing skills that are embedded within social studies content. Integrating instruction in this way allows students to learn concepts at a greater depth, building connections along the way. By providing a separate Phonics course along with additional Connections: Enrichment courses, students are able to accelerate the development of the foundational skills necessary for future academic success: fluency, reading comprehension, writing, spelling, grammar, structure and mechanics.

MATH AND SCIENCE (Grades 1–3)

The “Math and Science” block is a daily 85-minute class that is designed to integrate math and science. Students are typically a grade level higher than their peers and practice fundamental skills, explore topics, and demonstrate knowledge using manipulatives and hands-on approaches in the classroom. Throughout the year, topics spiral and build upon each other to strengthen mastery, further setting a strong foundation for future years. In addition to a structured math curriculum, students will also be introduced to science concepts such as: earth science, astronomy, and the physical sciences.

PHONICS (Grades 1–3)

The Phonics course sequence is based upon the understanding that the English language is a code, which students must learn to decode to become fluent readers. As such, students develop and master the decoding and spelling skills needed to read increasingly difficult texts and compose complex compositions. In Phonics, students will master all basic phonograms, numerous advanced phonograms, and advanced phonemic awareness concepts.

CONNECTIONS: READING ENRICHMENT AND MATH ENRICHMENT

Enrichment courses are built into the school day multiple times per week. Each course is designed to reinforce and provide students additional instruction to practice and master concepts covered in their respective core courses: Literacy, Humanities, and Math. Enrichment courses are designed to further develop the foundational skills that focus on Reading Comprehension, Math, and Phonics. Time in class will also be spent completing a variety of cross-curricular projects emphasizing collaboration, discussion, critical thinking, and creativity. Students will experience firsthand how skills from multiple courses can be used to solve real-world problems, making interdisciplinary connections helping them to understand complex concepts while they continue to build stronger foundational skills and knowledge in both math and reading.

ENGINEERING AND TECHNOLOGY (Grades 1–4)

Engineering and Technology introduces students to the processes, tools, and techniques of engineering design. Students will also be introduced to various modes of technology (tablets and/or Chromebooks) to develop touch typing and basic computer literacy skills that are developmentally appropriate for their grade level. Students develop problem-solving, logic, and relationship skills through hands-on, real-world projects that integrate content from core courses with technology and design.

Specials May Include:

VISUAL ARTS (Grades 1–4)

In Visual Arts, students are introduced to a wide range of artistic techniques as they hone their fine motor skills while working with a variety of different materials. As students progress through the course sequence, they expand upon these skills by making cross-cultural and personal connections in their art. Students also receive instruction in art history and explore the relationship between intent, context, and creative choice.

THEATRE (Grades 1–4)

Theatre introduces students to the different elements of drama and narrative. As they progress through the course sequence, students build upon their storytelling skills and work in groups to create and perform short scenes. Students also learn how to interpret and convey character, and work on revising, evaluating, and improvising dramatic scripts.

MUSIC (Grades 1–4)

In Music, students are introduced to the different elements of musical performance, theory, and history. They expand upon their musical knowledge by learning how to read musical notation, building their vocabulary to describe different styles of music, and participating in multi-part musical performances.

GRADES 1–3

COURSE OVERVIEW

** All courses are subject to change*

- Math and Science
- Humanities
- Phonics
- Connections: Reading/Math Enrichment
- Engineering and Technology
- Mandarin
- PE and Sports
- Fine Arts may include
 - Visual Arts
 - Theatre
 - Music

GRADE 4

COURSE OVERVIEW

** All courses are subject to change*

- English
- Math – Arithmetic A
- Science
- Engineering and Technology
- History
- Mandarin
- PE and Sports
- Fine Arts
 - Visual Arts
 - Theatre
 - Music

MIDDLE AND HIGH SCHOOL PROGRAMS

Our comprehensive middle school curriculum is designed to progressively move students toward a greater understanding of fundamental concepts in each subject. Teachers set high expectations and design instruction that is challenging and engaging, requiring students to refine their critical thinking skills and analyze content in deeper, more meaningful ways. As such, BASIS Charter School students far exceed traditional middle school standards and master advanced material that is normally taught in high school. For example, starting in grade 6 students take three science courses—biology, physics, and chemistry—each year to prepare for Honors and AP science courses. Through this progression of content, students master the material needed to excel in our high school program.

As your student enters grade 8, they will be mastering complex concepts and skills, taking responsibility for their educational goals, and focusing on their post-BASIS future. The rigor of grade 8 will help students prepare for the challenges of grades 9–12, where they will have the opportunity to take a wide range of Advanced Placement® Exams, as well as post-AP and Capstone courses. On average, your student may take 11 to 12 AP® Exams prior to graduation, with their overall grades reflecting test performance.

Due to the accelerated nature of the BASIS Charter School Curriculum, your student could meet the state requirements to graduate after grade 11. However, most students continue their studies into grade 12 and take advantage of the advanced study opportunities we offer to our seniors. A daily College Counseling Seminar fosters the exploration of different universities, career paths, and scholarship opportunities to encourage your student's achievement of post-graduation goals. Additionally, our counselors will help your student navigate financial aid, prepare for interviews, and facilitate college planning nights for families.

LINGUISTICS (Grades 6–7)

BASIS Charter Schools is thrilled to offer a groundbreaking program developed by experts that teaches students to analyze the fundamentals of language. Addressing topics that are typically only taught at the university level, BASIS Linguistics includes Linguistics 6 and Linguistics 7 as a precursor to world language selections in grade 8. In Linguistics 6, students gain a foundational understanding of the scientific study of language with lessons on topics ranging from historical linguistics to the psychology of language. In Linguistics 7, students will deepen their content knowledge by analyzing data sets, diagramming sentences, and exploring the phonetics and phonology of the languages that will be offered in 8th grade. The BASIS Linguistics course sequence will equip students with the necessary tools to be successful language learners and teach them that science can be used to understand language.

SPORK MATH

SPORK Math is comprised of the following courses: Arithmetic A (grade 4), Arithmetic B (grade 5), Pre-Algebra (grade 6), Algebra I (grade 7), Algebra II (grade 8), Pre-Calculus A, Pre-Calculus AB (grade 9), and Pre-Calculus B (grade 10). SPORK Math is delivered through tablets, allowing us to update the curriculum every year, to ensure that we are responsive to our students' needs. This method of delivery facilitates rapid homework communication between teachers and students, making time spent in the classroom more productive. For example, while students are doing homework, they can mark the problems they are struggling with the most. Their teacher will receive that information in real-time and can come to class the next day with a lesson prepared to address those concepts. Long term, SPORK Math will help teachers identify the areas students struggle with the most, allowing them to adapt their lessons and plan for extra practice.

FINE ARTS (Grade 5)

Students in Visual Arts 5 learn how to apply their knowledge of the elements and principles of art and design to production, criticism, aesthetics, art history, and multi-cultural studies. Likewise, students in Music 5 apply their skills to reading, interpreting, and performing a varied repertoire of music. In Theatre 5, students advance their skills in dramatic performance by learning how artistic choices create meaning and analyzing theater productions from multiple angles.

ART HISTORY & PRACTICE (Grade 6)

In Art History & Practice, students explore the world of art through a historical lens. They apply key concepts—themes, materials, or techniques—and vocabulary from each time period to their own creations and performances. In addition, students make connections across cultures, beliefs, and artists' perspectives to learn what inspires artists to create.

VISUAL ARTS (Grades 7–12)

Visual Arts courses focus on identifying and achieving artistic goals by creating, reflecting, and evaluating art, and understanding art in social and cultural context.

THEATRE (Grades 7–12)

Theatre courses require students to apply previously learned skills and knowledge in the context of a production-based class.

MUSIC (Grades 7–12)

Music courses focus on technique and performance.

THE SENIOR PROGRAM

The BASIS Charter School Curriculum culminates with the Senior Program, which plays a vital role in preparing students for college. After completing their junior year, most BASIS Charter School students have earned enough credits to meet state graduation requirements and have the option to graduate early; however, the majority choose to complete their senior year and earn the BASIS Diploma with Honors or High Honors.

The Senior Program is comprised of a daily College Counseling Seminar, advanced Capstone courses, and a Senior Project that is completed off campus.

COLLEGE COUNSELING SEMINAR

A unique aspect of our Senior Program is the College Counseling Seminar. In this course, students explore different colleges and universities, write application essays, apply for scholarships, navigate financial aid, and prepare for interviews. Our dedicated College Guidance Coordinators work hard to ensure that all students are prepared for the college application process and find the school that is the best fit for them as an individual. College Guidance Coordinators help students navigate the college application process by facilitating campus visits, hosting university admissions representatives, providing feedback on applications and personal essays, supplying news about scholarships, and hosting financial aid and college planning nights for families.

"Getting accepted to college is simple. Distilling a student's purpose, gifts, and potential, then aligning them to colleges that will suit their future social, intellectual, and financial needs is the complex art at the center of the College Counseling Seminar."

—Meg Giles, Sr. College Guidance Coordinator, BASIS Mesa

CAPSTONE COURSES

During the first two trimesters of their senior year, BASIS Charter School students take Capstone courses designed to emulate a college classroom where students are engaged in independent research, lab work, and seminar-style discussion. Capstone courses cover complex material and require students to learn about a specific topic in depth. Courses span across the academic disciplines and serve as a bridge between high school academic standards and college scholarship.

Examples of Capstone Courses:

- Biology of Psychological Disorders
- Forensics
- Gender Studies
- History of Food, Disease, and Immune Response
- The Latin Roots of Italian
- Marine Biology
- Multivariable Calculus
- Organic Chemistry
- Popular Music as Literature
- Quantum Mechanics
- Statistics
- World History Through Film

** Capstone courses offered vary year-to-year and by campus.*

SENIOR PROJECTS

Senior Projects are the true synthesis and culmination of a student's journey through the BASIS Charter School Curriculum. Through these comprehensive projects, BASIS Charter School seniors combine their creativity, critical thinking skills, and deep content knowledge to make a real and direct impact on their communities and the world. Students can complete the Senior Project in one of two ways: they can do a traditional Senior Project, or they can do a Senior Project that aligns with the AP Capstone™ curriculum. Students who successfully complete a Senior Project earn a BASIS Diploma with High Honors.

TRADITIONAL SENIOR PROJECTS

The BASIS Diploma Senior Project is a selective program that requires students to dedicate the final trimester of their senior year to researching or developing an original idea in a field of their choosing. In addition to developing a project of the student's choice and design, Senior Projects also entail an off-campus experience, such as an internship, job shadow, or volunteer position. These experiences can take them across the nation or around the world. Students are guided by a faculty member at their BASIS Charter School, plus a mentor at their off-campus site. At the end of the trimester, students present their findings to their peers, teachers, and parents.

AP CAPSTONE-BASED SENIOR PROJECTS

Through the AP Capstone™ curriculum, BASIS Charter School students design, plan, and conduct year-long research projects, applying their knowledge to real-world problems. Students are guided by a faculty member at their BASIS Charter School, as well as a mentor at their off-campus research site. In addition to submitting an initial project proposal, the AP Research course (the second course in the AP Capstone sequence) requires students to write a 4,000- to 5,000-word academic essay on their chosen topic, and then present their findings.

GRADES 5–12

COURSE OVERVIEW

* All courses are subject to change

MATH (minimum course-level requirements)

- **Grade 5** Arithmetic B
- **Grade 6** Pre-Algebra
- **Grade 7** Algebra I & Geometry
- **Grade 8** Algebra II & Geometry
- **Grade 9** Pre-Calculus A
- **Grade 10** Pre-Calculus B
- **Grade 11** AP Calculus AB
- **Grade 12** Math Capstone

SCIENCE

- **Grade 5** Physical Geography and Science 5
- **Grades 6–8** Biology, Chemistry, and Physics (all three each year)
- **Grade 9** First Honors Science (Biology, Chemistry, or Physics)
- **Grade 10** Second Honors Science; first AP Science
- **Grade 11** Third Honors Science, second AP Science, or AP Elective
- **Grade 12** Science Capstone

SOCIAL SCIENCES

- **Grade 5** U.S. History (pre-contact to Industrial Revolution)
- **Grade 6** World History I (prehistory to Age of Exploration)
- **Grade 7** World History II (Age of Exploration to Cold War Era) and Arizona History
- **Grade 8** U.S. History (Industrial Revolution to Civil Rights Movement)
- **Grade 9** AP U.S. Government and Politics
- **Grade 10** AP World History: Modern
- **Grade 11** AP U.S. History or Academy U.S. History Seminar
- **Grade 12** Humanities Capstone

ENGLISH/LANGUAGE ARTS

- **Grade 5** English and Writing Mastery
- **Grades 6–8** English
- **Grade 9** Honors English Literature, Honors English Language
- **Grade 10** AP English Language
- **Grade 11** AP English Literature
- **Grade 12** Humanities Capstone

WORLD LANGUAGE

- **Grades 6–7** Linguistics
- **Grades 8–11** Latin, Mandarin, or Spanish (AP Optional)
- **Grade 12** World Language Capstone

FINE ARTS, PE, AND ELECTIVES

- **Grade 5** Visual Arts, Theatre, Music, PE & Sports
- **Grade 6** Art History & Practice (Visual Arts, Theatre, or Music) and PE & Sports
- **Grade 7** Visual Arts, Theatre, Music, Engineering & Technology, or PE & Sports
- **Grades 8–12** General electives*, AP elective, or Post-AP elective

OTHER

- **Grade 7** Logic
- **Grade 8** Economics

* Minimum of one Fine Arts elective required.

A variety of subjects, including AP courses, are available as electives. Please contact the school to review possible electives for the upcoming school year.

EXTRACURRICULAR ACTIVITIES

Extracurricular activities enhance the learning experience and provide opportunities for enrichment, socialization, and achievement beyond the classroom. These activities allow students to interact with different groups, pursue individual interests, and develop new skills. To participate in extracurricular activities, students must exhibit good behavior and maintain a strong academic standing. As such, they learn to balance outside activities with advanced coursework, an important time management skill that will benefit them throughout their education.

EXTRACURRICULAR OPPORTUNITIES OFFERED AT BASIS FLAGSTAFF MAY INCLUDE*:

- Art Club
- AIA SPORTS (competitive high school league):
- Boys & Girls Basketball
- Chess
- Coed Tennis
- Coed Golf
- Cross Country
- Girls Volleyball
- Soccer
- Speech & Debate
- Track & Field
- Basketball Club
- Book Club
- Boys Basketball Team – MS, JV
- Boys Basketball Team – MS, Varsity
- Chess Club
- Coed Speech & Debate
- Creative Writing
- Cross Country – MS
- Drama Club
- Girls Basketball – MS Team
- Grand Canyon Youth
- Mountain Bike Team
- National Honor Society
- National Junior Honor Society
- Strings Club
- Student Life Leadership Club
- Writing Club
- Volleyball Club

** Extracurricular activities offered vary by campus and from year-to-year based on student interest.*

F

A

Q

WHAT ARE BASIS CHARTER SCHOOLS?

The BASIS Charter Schools network comprises 39 charter schools across Arizona, Louisiana, Texas, and Washington, D.C. All BASIS Charter Schools utilize the BASIS Charter School Curriculum, which encourages self-motivation and hard work, allows students to master advanced content and thoroughly prepares them for college.

HOW DO I APPLY?

All applications must be submitted through the online enrollment portal at enrollBASIS.com. Parents/guardians should complete and submit student enrollment applications during the Open Enrollment period. However, applications are accepted throughout the year. You may apply to more than one BASIS Charter School, but you must submit separate applications, per student, to each school. Applications do not need to be signed in order to be entered in the lottery. Applicants who are offered enrollment at a BASIS Charter School will be provided with instructions for accepting the offer, completing the online registration form, and submitting registration documents to the school.

HOW DO THE LOTTERY AND WAITLIST WORK?

Every year, there is an Open Enrollment period for the following school year. Applications submitted during Open Enrollment and outside of Open Enrollment are processed differently. Please note that the exact Open Enrollment dates and lottery dates are determined on a year-to-year basis. Information will be available on enrollBASIS.com once this year's dates are finalized.

If you apply during Open Enrollment: If the number of applications received during Open Enrollment exceeds the number of openings (at any grade level), enrollment is determined by a lottery and waitlist. The Open Enrollment period for BASIS Charter Schools is NOT first-come, first-served. Instead, applicants are added to a lottery pool. To be included in the lottery, you need to apply by midnight on the last day of Open Enrollment. After the Open Enrollment period ends, lottery drawings are held. You will receive the results directly from the school(s) you applied to. Families that do not receive an enrollment offer from the lottery will be added to a waitlist.

If you apply outside of Open Enrollment: Applications submitted after the Open Enrollment period has ended will be added to a waitlist and processed on a first-come, first-served basis, following any applications received during Open Enrollment. Schools will continue to make offers to waitlisted applicants as seats become available. There is not a lottery for applications submitted outside of Open Enrollment.

BASIS Charter School enrollment policies are available for review in the enrollment application portal at enrollBASIS.com.

WILL I HAVE TO PAY TUITION?

No. BASIS Flagstaff is tuition-free, with the exception of full-day kindergarten. The only payment required is a security deposit, which is held in the event that school property is lost or damaged. Barring any such damage, the deposit is refunded once the student leaves or graduates from the school.

WHAT IS THE SCHOOL-YEAR SCHEDULE?

The start date for each school is determined by the Head of School and leadership team, and then announced on the school's website. To reduce the chance of scheduling conflicts for BASIS Charter School families with students in multiple grade levels, or who attend different schools, we try to align our school calendars with district school calendars. To maximize academic instruction time, BASIS Charter Schools do not include professional development (in-service) days on the school calendar.

HOW MUCH HOMEWORK DO STUDENTS RECEIVE?

Homework volume differs by grade level and by student. For example, homework times range from 15 minutes in kindergarten to approximately one hour in grade 4. In high school, this time may increase to between one hour and three hours of homework per night.

HOW DO I PREPARE MY CHILD TO ATTEND A BASIS CHARTER SCHOOL?

To foster every student's successful transition into our advanced course of study, we provide academic and student support throughout the year, as well as optional summer orientation programs.

WHAT EXTRACURRICULAR OPPORTUNITIES ARE AVAILABLE?

BASIS Charter Schools offer extracurricular activities that enrich students' academic experience. We do our best to align extracurricular activities to serve our students' interests. As a result, extracurricular activities may not be identical at every BASIS Charter School. However, each BASIS Charter School campus offers an array of clubs and extracurricular activities in which students can participate.

DO YOU HAVE BEFORE AND AFTER SCHOOL PROGRAMS?

Yes. BASIS Charter Schools offer the Early Bird and Late Bird programs to assist parents/guardians whose schedules do not align with the schools' scheduled start and end times. The Early Bird program serves parents/ guardians whose days begin earlier than the school start time. During Early Bird, staff members supervise students in designated areas of the school. While our staff members do monitor students' safety and general well-being, we do not provide organized instruction or recreation during this time. Students are still expected to follow all school rules. The Late Bird program is a fee-based after-school program that serves parents/ guardians whose days end later than the school end time. During Late Bird, staff members supervise students in designated areas of the school. The Late Bird program is structured, so students have time to do homework, read, make up tests, etc.

DO YOU PROVIDE TRANSPORTATION?

No. BASIS Charter Schools do not provide transportation for students at this time. However, we encourage members of our parent-volunteer booster clubs to identify carpool opportunities.

DO YOU PROVIDE SPECIAL EDUCATION SERVICES?

Yes. BASIS Charter Schools are public schools that provide a Free and Appropriate Public Education (FAPE) to students with disabilities who are currently eligible, or are determined eligible, to receive special education and related services. BASIS Charter Schools comply with all aspects of federal and state civil rights and disability laws, and we are committed to ensuring that all students who are eligible for special education and related services receive them.

DO BASIS CHARTER SCHOOLS PROVIDE PHYSICAL EDUCATION?

Yes. Students in grades 1 through 6 are required to participate in PE and Sports classes three times per week. Beginning in grade 7, students can choose to continue with Physical Education as an elective course.

DO STUDENTS STRUGGLE WHEN THEY TRANSFER TO A BASIS CHARTER SCHOOL DURING HIGH SCHOOL?

High school students who transfer to a BASIS Charter School receive individualized academic plans based on the courses they have already completed at their previous school(s). These plans are intended to motivate students to reach their highest academic potential, while also considering their prior educational experience. Students who transfer to a BASIS Charter School later in the program still benefit from being part of an academically focused community and receive a more advanced education than they would at a traditional high school.

DO YOU OFFER COLLEGE COUNSELING?

Yes. The college counseling process begins early in the BASIS Charter School Curriculum. Students attend educational seminars beginning in grade 8 to become more familiar with all facets of the college admissions process. BASIS Charter School seniors take a daily College Counseling Seminar, in which they explore potential colleges, submit applications, apply for scholarships, and prepare for interviews.

DO BASIS CHARTER SCHOOL GRADUATES RECEIVE COLLEGE SCHOLARSHIPS?

Yes. Each school's College Guidance Coordinator works diligently to help students find scholarship opportunities. On Average, each BASIS Charter School graduate earns over \$100,000 in scholarships.

WHAT COLLEGES DO BASIS CHARTER SCHOOL GRADUATES ATTEND?

We encourage students to apply to the schools or programs that best align with their interests and goals. Our graduates attend some of the nation's most prestigious colleges and universities. In fact, 62% of 2023 BASIS Charter School graduates were accepted to a *U.S. News & World Report* top 100 ranked National University or National Liberal Arts College, including Columbia, Harvard, MIT, Princeton, Stanford, University of Chicago, and Yale.
