

Sample Daily Kindergarten Schedule

What will your kindergartner's day look like at BASIS Charter Schools?

Our kindergarten program gives young learners the strongest start possible. Throughout the day, students engage in dynamic, hands-on activities that get them excited about learning and lay the foundation for academic success.

In addition to core classes like Math and Language & Literacy, full-day kindergartners participate in a variety of enrichment courses that provide additional learning opportunities and stimulate creativity. Our full-day kindergarten students also have three recess blocks each day, along with lunch and snack breaks. This allows students to stay active and improves their concentration during lessons.

Here's a look at how a typical day is structured within our kindergarten classrooms.

Note: Schedules vary from school to school. Please reach out to your local BASIS Charter School for more information.

Math Foundation
